**ARCHITECTS' NOTES.**

It is stated that a syndicate of Philadelphia capitalists is now forming for the erection of a new apartment house in Germantown. There are numerous sites believed to be available for the purpose, most of them in the vicinity of Germantown avenue, Walnut Lane and Tulpehocken street.

Charles E. Oelschlager, architect, Harrison Building, has been commissioned to prepare plans and specifications for a new church building for the Lutheran Church of the Incarnation at Forty-seventh street and Cedar avenue, which was recently destroyed by fire. Work on the new structure will start as soon as possible.

The congregation of the Bethany Presbyterian Church have purchased the plot of ground at the southwest corner of Fifty-third and Locust streets, from Frank H. Moss for \$97,500. The plot measures 450x380 feet, and upon it one of the handsomest churches in the city will be erected. It is estimated it will cost in the neighborhood of \$150,000. Further details later in regard to architect and size of edifice.

Contracts will be signed in a few days for the concentrating, chromo and engine and power house buildings for Cawley, Clark & Co.'s new plant at Newark, N. J. All machinery will be driven from a central power house, and it is intended by the owners to have the best color plant in this country. The cost of these additions will be about \$65,000. Geo. W. Campbell, engineer and architect, office 171 Broad street, Newark, N. J.

Edgar V. Seeler, architect, Real Estate Building, has completed plans and specifications, and sent same out to builders for estimates for the handsome new library to be built at Williamsport, Pa., at a cost of \$125,000. It will be two stories high and be built of stone and have the usual furnishings of a building of its kind. The following builders have been invited to bid: Edw. W. Gilbert & Co., W. Roydhouse, Arey & Co., Charles Gilpin.

Henry L. Reinhold, Jr., and W. M. VanHorn, associate architects, 1004 Chestnut street, are preparing plans and specifications for a three-story frame and shingle building, measuring 25x60 feet, to be built at Wildwood, N. J., and to be known as the Ottens Pharmacy. The first floor will be drug store and doctor's office and the second and third floors will contain two suites of rooms each containing six rooms and bath. Bids will be invited in a few days.

Horace Trumbauer, architect, Land Title Building, has completed plans and specifications and invited estimates for two workmen's cottages to be built on estate of P. A. B. Widener at Elkins Park, Pa. They will be two stories high of frame and pebble dash and

will measure 34x23 feet, with porches on the front. The following have been invited to bid: George F. Payne & Co., D. W. Sperry, J. Sims Wilson, F. L. Hoover & Sons, of this city, and Albert Beck, of Ambler, Pa.

Henry Reinhold, Jr., architect, 1004 Chestnut street, has completed plans and specifications and invited estimates for a three-story apartment house for Sarah E. Smith, to be erected at Fortieth and Girard avenue. It will be built of brick and stone and contain all the modern and up-to-date appointments of a building of its kind. Bids due September 20. The following have been invited to bid: P. J. Hurley, Metzger & Wells, King, Killough & Co., John Kohl, Geo. Glenn & Co., Burd P. Evans and Lynch Bros.

Charles E. Oelschlager, architect, Harrison Building, has completed plans and specifications and invited estimates for a large storage warehouse to be built at 1427-29-31 Vine street. It will be six stories and basement high, with exterior walls of granite, terra-cotta and brick, and will measure 54x175 feet and will have elevators, electric lighting, steam heat and a sprinkler system. The following have been invited to bid: Wm. R. Dougherty, Stacy, Reeves & Sons, Cramp & Co., Alexander Chambley, Doyle & Doak, John R. Wiggins & Co., P. J. Hurley and Joseph Bird.

Ballinger & Perrot, architects and engineers, 1200 Chestnut street, have completed plans and specifications and invite sub-bids until September 20th, for a warehouse to be erected at the southeast corner of Second and Wilsey street for William Montgomery & Company. ### THE COLONIAL TRUST CO. WILL MOVE

October 2d next is the day selected for the removal of the Colonial Trust Company from its present location to its new offices and building at the northeast corner of Thirtieth and Market streets; the new location having been purchased several months ago.

This new site was a wise selection between the two terminals of the most important railroads in the country, for indeed it is an open question if there is another single point in the whole world where so many people are landed daily by rail or boat travel as in this immediate vicinity. The company will occupy the whole of the lower floor for office purposes. This floor has been exquisitely fitted up with hardwood and marble partitions, desks, counters, etc., the floor being covered with costly rubber tiling. The vaults, which are said to have been the product of a Philadelphia firm, are conveniently reached by a wide, open stairway, and the space for vault use is both large and roomy. The conveniences provided for box renters border on the luxurious, as no expense has been spared in making this end of the company's business a drawing and an inviting card in every particular. The work of Colonializing the architecture of the entire building, inside and outside, will go on until completed, but it must be understood that as a modern office building every appliance which will enhance the comfort and convenience of the occupants of offices, whether in singles or in suites, will not be omitted.

The Colonial Trust Company has already gained a large line of deposits. It is a well managed and prosperous financial concern, officered and managed by the following gentlemen: President, John O. Gilmore;

vice president, William K. Haupt; secretary and treasurer, Harvey L. Elkins; real estate and trust officer, Thomas McIlhenny solicitor, Albert B. Weimer. Directors are as follows: David S. B. Chew, Henry Dolinger, R. W. Downing, W. C. Downing, Florence Fox, John O. Gilmore, William K. Haupt, E. R. Johnson, Jesse B. Kimes, Harvey L. Elkins, M. Hawley McLanahan, Thomas M. Seeds, Jr., Chas. H. Thompson, Albert B. Weimer.

The regular quarterly meeting of the Master Builders' Exchange was held at the Exchange Rooms, 18 South Seventh street, on last Tuesday, September 26th. ### F. WEBER & CO'S NEW CATALOGUE.

F. Weber & Co., with their usual energy and thoroughness in every detail of their extensive business, have just issued their new catalogue which, it is stated, embraces each of their many important lines in the service of supplies for architects, engineers, artists in oil and water colors, china decorators, lithographers, and, in fact, all other professional draughtsmen and designers; and indeed the gilder, sign and coach painter, etcher and engraver have been cared for, as a full list of all materials used in these important branches is contained in this catalogue, as well as an extensive list of all materials used for pyrography, or wood and leather burning.

Of course, the wax and paper flower material end of this extensive business has not been neglected, as it was the firm's intention to include all lines in its catalogue, and it may safely be said that no branch, however unimportant, has been omitted. The firm's store and offices are at 1125 Chestnut street.

### BUILDING AND REAL ESTATE NOTES

The National Soap Company will erect an addition to their plant on Sedgley avenue, near Eighteenth street. It will be two stories high, with basement and will measure 40x80 feet, and be built of brick.

Roydhouse, Arey & Co., builders, Fidelity Building, have plans posted for a four-story and basement electric truck shop storage building to be built at Seventeenth and Buttonwood streets, for the Baldwin Locomotive Works. It will measure 200x107 feet, and will be built of brick and stone.

Doyle & Doak, builders, 1509 Sansom street, have been awarded the contract to erect a twelve-story warehouse, 94x141 feet, at the northeast corner of Second and Spruce streets, for Mary L. Coleman and Catharine C. Bonner. It will be built of brick and stone and will be fireproof.

King, Killough & Co., builders, Land Title Building, have been awarded the contract to build the new \$10,000 apartment house at 1139 North Thirty-ninth street. It will be three stories high, to measure 20x83 feet, and will be built of pompeian brick, with a cut stone base. Plans and specifications by Henry L. Reinhold, Jr., architect, 1004 Chestnut street.

It is officially contradicted that Chestnut Hill Park, together with the buildings, is to be removed to Lansdale, Montgomery county. To the contrary, we are assured that this popular resort will remain where it is, and that

in the early spring extensive improvements in every direction, involving the expenditure of a great deal of money, will be commenced.

Balling & Perrot, architects and engineers, 1200 Chestnut street, have awarded contract to L. E. Parkinson, Elkins, W. Va., for the erection of a manufacturing plant consisting of a machine shop, foundry, pattern and pattern storage shop and boiler house, to be erected at Elkins, W. Va., for Humphrey Manufacturing Company of Towanda, Pa.

D. Buffamoyer & Son, builders, at Lebanon, Pa., have been awarded the contract for a new residence for Miss Nancy Mitchell, to be built at Hathaway Park, Pa. It will be three stories high, built of brick, with porches on front and side; interior in hardwood finish and contain all conveniences and appointments. Plans and specifications by Guy King, architect, 1513 Walnut street.

Thompson & Stiles, builders, at Atlantic City, have been awarded the contract to build the new wing stores and pavilion and passage connecting same to the Hotel Denis at Atlantic City, N. J. The addition will be six stories and basement high and will be fire-proof, being built of brick, steel and reinforced concrete. Plans and specifications by Walter Smedley, architect, Stephen Girard Building.

Stacy Reeves & Son, Cramp & Co., Edward W. Gilbert & Co., Roydhouse, Arey & Co., and Wm. R. Dougherty have submitted bid, Addison Hutton, consulting architects, Savery, Scheetz & Savery, architects, Stephen Girard Building, according to their revised plans and specifications, for the additions to the Pennsylvania Historical Society's buildings at Thirtieth and Locust streets.

D. W. Sperry, builder, 1305 Arch street, has been awarded the contract to build the two workmen cottages on the estate of P. A. B. Widener, at Elkins Park, Pa. They will be two stories high, of frame and pebble dashed and measure 34x23 feet, and will have porches and up-to-date improvements. Plans and specifications by Horace Trumbauer, architect, Land Title Building.

David McClelland, builder, 515 South Twentieth street, has plans posted for a church and Sunday school for the Welbrook Presbyterian Church at Welbrook, near Baltimore, Md. It will be one-story and clerestory high and measure 60x122 feet, and will be built of brick and stone, with slate roof and all the usual church furnishings. Bids due October 12. Butto & White, architects, Baltimore, Md.

Cramp & Co., builders, 1421 Filbert street, have plans posted and request sub-bids for a new bank and office building to be erected on the east side of Fifteenth street, opposite the United States Treasury Department, Washington, D. C., at a cost of \$500,000. It will be six stories and basement high, 80x120 feet, and will be built of marble and terra-cotta, with all modern appointments. The building is to be erected for the National Metropolitan City Bank.

In one of our previous issues we published

the fact that Frank E. Wallace, builder, with office in the DeLong Building, had submitted the lowest bid and would probably be awarded the contract for the new store building to be erected at 21 North Seventh street for Dr. W. R. Wilson. Mr. Wallace has now signed the contract for the erection of this building and will proceed at once with the work. Plans and specifications by Cope & Stewardson, architects, 320 Walnut street.

At Baltimore, Maryland, plans have been filed in the office of the Building Inspector by the Baltimore & Ohio Railroad Company for the erection of seven buildings at Riverside, at the foot of Jackson street. The plans have been prepared by chief engineer J. E. Greiner, and call for an expenditure of about \$350,000. It is stated that the contract for the erection of the new building for the Maryland Institute, for which bids were opened October 5th, will be awarded in a few days.

Smith-Hardican Company, builders, Perry Building, have been awarded the contract to build St. Martin's College, on Seventh street, near Catharine street. It will be three stories, with roof garden, and will be built of brick and stone. At the present time only one story and basement will be built, balance later. Contract price, \$17,000. Plans and specifications by Bailly & Bassett, architects, 421 Chestnut street. They also have been awarded the contract to make alterations to the property at 1633 Chestnut street, according to the plans and specifications of Duhring, Okie & Ziegler.

J. S. Cornell, builder, Land Title Building, has submitted bid for a handsome new residence to cost \$50,000, to be built adjoining the southwest corner of Twenty-second and Locust streets, for George W. Norris, Esq., member of the firm of E. D. Smith & Co. The plans provide for a house to be four stories high with a basement, to measure 43x53 feet. It will be built of brick, trimmed with Indiana limestone. It will be finished on the interior in quartered oak, poplar and cherry woods. There will be open fireplaces and every convenience and appointment. Plans and specifications are by James Purdon, architect, Boston, Mass.

The prizes offered by "Engineering News" and the "Cement Age," of New York, for the best papers on "The Manufacture of Concrete Blocks and their Use in Building Construction," have just been awarded by the jury, which was composed of Messrs. Robert W. Lesley, past president of the American Cement Manufacturers' Association; Richard L. Humphrey, president of the Cement Users' Association; and Prof. Edgar Marburg, secretary of the American Society of Testing Materials. The first prize of \$250 was won by a paper by Mr. H. H. Rice, of Denver, Colorado, secretary of the American Hydraulic Stone Company. The second prize of \$100 is given to a paper by Mr. Wm. M. Torrance, C. E., of New York City, assistant engineer in charge of concrete-steel design for the Hudson tunnel companies.

PHILADELPHIA, WED'Y, OCT. 18, 1905.

A singular, although very pleasing, incident occurred in a case involving foreclosure proceedings before the court at Norristown, on October 11th last. The Land Title Company, of this city, held a mortgage on the property of a poor woman who, in her indignation at the company because of its demands for interest and principal, vented her wrath in the shape of a prolonged series of letters against the Land Title Company's president. These letters contained such a mass of misstatements that it was really necessary to disprove them through legal proceedings, which resulted in the court's ordering the jury to give a verdict in favor of the company.

To the surprise of those present, after the verdict had been entered, the Land Title Company's counsel immediately announced that the mortgage would be at once satisfied without the payment of a single dollar, either for principal or interest, which was done.

**ARCHITECTS' NOTES**

Seymour Davis & Paul A. Davis, 3d, architects and engineers, have moved from 907 Walnut street to 1600 Chestnut street, second floor.

Wattress & Son, architects, 430 Walnut street, are working on plans and specifications for rebuilding St. Peter's P. E. Church, at Phoenixville, Pa.

Architect M. I. Kast, Harrisburg, Pa., has prepared plans for the proposed new Harris Street United Evangelical Church, of that city. Rev. J. Willis Hoover is the pastor.

Architect Andrew P. Cooper, Connelville, Pa., has prepared plans for a bottling house to be erected on Ridgely avenue, Baltimore, Maryland, for the Mount Vernon Brewing Company.

Peter F. Kuhn, 3036 North Eighth street, architect, is preparing plans for four three-story brick dwellings to measure 16x42 feet, to be erected in Germantown for H. Carroll, to cost \$12,000.

Wilson, Harris & Richards, architects and engineers, Drexel Building, have rearranged their offices and have changed the location of the entrance to Room 1061. This is in the same corridor as the former entrance, but at the side instead of at the end.

Architect Jacob F. Gerwig, of Baltimore, Maryland, has prepared plans for twenty handsome two-story brick and stone dwellings to be erected on the south side of Fayette street, between Payson and Pulaski streets. The owners are German & Company.

Hancock & Hokanson, architects, 931 Chestnut street, have completed plans and specifications and invited estimates for a new house to be built at Wyncote, Pa. It will be two-and-a-half stories high, 45x35 feet, and will be built of stone and shingle. It will have porches; the interior in hardwood finish and have the usual appointments. Bids due November 2.

A regular meeting of the T-Square Club will be held at 1204 Chancellor street on Wednesday evening, November 2. Supper will be served at 6.30 P. M.; meeting will be called to order at 8 o'clock P. M. There will be an illustrated lecture on that evening by Andrew W. Crawford. The members of the club are invited to the fall smoker to be held at the above clubrooms on October 25th.

A small syndicate has secured an option on a property well located and near Wayne Junction, which will be altered to suit the needs of a banking institution, and will be known as the Wayne Junction Trust Company. Further particulars can be had at the office of Hayes & De Prefontaine, 4407 Germantown avenue. George S. Gandy has been chosen temporary secretary.

### ARCHITECTS' NOTES

The First United Presbyterian congregation, now located at Broad and Lombard streets, have purchased a tract of land at Fifty-third and Baltimore avenue, and will erect a handsome new edifice on this site.

Ballinger & Perrot, architects and engineers, 1200 Chestnut street, have completed revised plans and specifications and invite sub-bids until November 2d, for a five-story and basement addition, 35x70 feet to the morocco factory of C. J. Matthews, at the northeast corner of Bodine and Willow street. Details previously noted.

It is said that Nixon & Zimmerman are interested in a syndicate which will erect a fine theatre in Washington, D. C., at Thirteenth and Pennsylvania avenue, northwest. The plans provide for a theatre, summer garden, rathskeller and theatrical hotel. It is understood that the transfer of the property, which belongs to the Wilkins Estate, has been agreed upon.

Wm. Copeland Furber, architect and engineer, 418 Walnut street, has been invited by the building committee to prepare plans in competition for the new Carnegie library to be built at New Orleans, La. It will be one-story and basement and mezzanine floor high, 152x100 feet, and will be built of stone and have the usual appointments. It is estimated to cost \$214,000.

The Germantown Dispensary and Hospital has taken title to the three-story stone building and stable at 648 East Penn street, Germantown, adjoining the hospital, from Charles Bannum for \$14,000. This newly acquired house will be altered for hospital purposes and additions will be made to the present building. As the hospital owns considerable ground now, measuring 360x225 feet, at the above place, it is expected that in a short time they will erect new buildings on these grounds.

Furness Evans & Co., architects, 401 Chestnut street, have completed plans and specifications and invited estimates for a two-story and basement stone parish house, 58x84 feet, for the Sherwood Mission of the Protestant Episcopal Church, and to be erected at Fifty-seventh street and Baltimore avenue. A gymnasium will be in the basement; auditorium and six class room on the first floor, and a guild room on the second floor. Wm. R. Dougherty has plans rosted.

At the recent session of the Reformed Synod it was decided that the Reformed Church would erect a large office building at a cost of \$75,000, at the northwest corner of Fifteenth and Race streets, with offices for the use of the Sunday School Mission and Publication Board.

Rev. Russell H. Conwell announces that it is the intention of the Baptists to have a great summer school and Chautauqua to be built

somewhere in New Jersey, near some watering resort. The exact location has not been selected yet.

Watson & Huckel, architects, 1211 Walnut street, have completed plans and specifications and invited estimates for a new parochial school to be built at Tacony, Philadelphia, for St. Leo congregation, Rev. John J. Rogers, pastor. It will be three-story and basement high, 45x90 feet, built of stone and brick. It will be when finished an eight division school, but at the present time only one-half will be built, making it for the time being a four division school. Bids due November 8th. The following are bidding: Mr. M. Kilcoyn, F. T. Maguire, Henderson & Co., W. J. McShane.

Horace Trumbauer, architect, Land Title Building, has completed plans and specifications and invited estimates for the new club house for the Racquet Club, to be built on the east side of Sixteenth street below Walnut street, at a cost of \$300,000. Bids due November 13th. The following have been invited to bid: Cramp & Co., Herbert E. Havens, The Charles McCaul Company, Thomas M. Seeds, Jr., Edwin F. Gilbert & Co., Doyle & Doak, George F. Payne & Co., John R. Wiggins & Co., Charles Gilpin, Jacob Myers Sons, Stacy Reeves Sons, Roydhouse Arcey Company and J. E. & A. L. Pennock.

Stearns & Castor, architects, Stephen Girard Building, are working on revised plans and specifications for the new stone church to be built at Seventeenth and York street for the West York street Methodist Episcopal congregation. It will measure 66x80 feet and will be one-story high with a basement and a gallery. Details previously noted. The same firm have been commissioned to prepare plans for several milk stations to be erected at Bethlehem and Wilkes-Barre and other parts of Pennsylvania for R. Harbison, of this city. Each station will measure about 30x115 feet and be equipped with a refrigerator plant, etc.

Architects W. C. & A. F. Cottrell, Asbury Park, N. J., have prepared plans for extensive improvements to the Auditorium Hotel, Sixth and Kingsley avenues, Asbury Park. The structure will be entirely remodeled, thirty new bed rooms, baths, etc., added, also a dining room, 30x60 feet, new kitchen, serving rooms, servants' quarters, parlors, spacious hall and staircase and large porches. The same architects have made plans for similar improvements to Sunset Hall, also for a restaurant and many other improvements. The same architects have prepared plans for a cottage at 509 Second avenue for Mr. W. A. Stimson, of the Newark, N. J., Call. The contract has been awarded to Joseph T. Stewart. The cost will be \$5,000.

Watson & Huckel, architects, 1211 Walnut street, have been commissioned by the Board

of Railroad Commissioners of Massachusetts to prepare plans and specifications for the handsome union passenger station for the city of Worcester, Mass., to be erected on Washington Square and Front street, that city, at a cost of \$400,000. The station will be used by the Boston & Albany, New York, New Haven and Hartford and Boston and Maine Railroads. It will be three stories high, with granite base, brick and terra-cotta superstructure. It will front on Washington Square Piazza and will have a frontage of 250 feet. The main waiting room will have a floor area of 1,000 square feet, with steam appliances and accommodations for baggage room, mail and express companies. The upper portion will be used by the various railroads as offices. The main portion will be handsomely finished on the interior. It will connect with the various platforms by means of a subway, thus avoid crossing of track, and when finished will be one of the finest and most modern and complete passenger stations in the country. They are now engaged on the working drawings which will be ready for estimates in about six weeks' time.

**The Pinkerton Floor Surfacing Machine**

This method of surfacing floors has proven to be far superior to any method yet invented. It does away with plane marks, gouges, tears and all other defects left in floors by the ordinary hand planing. This machine leaves no shavings or dust behind, and is especially adapted to surfacing large floor spaces such as floors of Department Stores, Dancing Halls, Skating Rinks, etc. Architects and Builders having floor work of any kind are kindly requested to write us for an estimate. We do all kinds of Floor Laying, Planing and Finishing, Hardwoods and Parquetry Flooring.

It is reported that the Philadelphia Rapid Transit Company will demolish the row of dwellings on the south side of Market street, between Twenty-second and Twenty-third streets, and erect a large power house which will furnish the power for the subway.

Cope & Stewardson, architects, 320 Walnut street, are working on plans and specifications for a 10-story building to be built at 919-921 Walnut street. It will have a frontage of 66 feet and a depth of 235 feet. It will be constructed of brick, stone and steel, and have all modern appointments.

The work will consist of stone and brick work, cement and cement floors, engine foundations, retaining walls, steel roof trusses, slate and tile roofing, cut stone trimmings, copper work, painting, etc. Plans can be seen at the above office.

Heacock & Hokanson, architects, 931 Chestnut street, have completed plans and specifications, and invited estimates, for a stable for Berger Brothers, to be built at Wood and Orianna streets. The plans call for twenty cottages on two sides of a green campus, with an administration building at one end and a chapel and gymnasium at the other end.

A site for a branch library at Manayunk, donated by Common Councilmen John F. L. Morris, was formally transferred to the Free Library trustees. It is situated at Webster, Fleming and Dupont streets, measures 100 by 137 feet, and is at the geographical and population centre of the Twenty-first ward. Plans for the structure to be erected,

which will cost about \$25,000, will be drafted by Benjamin R. Stevens, architect. Building and equipment will be paid for out of the Andrew Carnegie fund of \$1,500,000 for thirty branch libraries.

The Executive Committee of the T Square Club announces the following programme in the third competition for the Walter Cope Memorial prize. This prize, established in the memory of the late Walter Cope, is awarded annually to the winner of a special competition in municipal improvement or landscape architecture. Drawings must be submitted unmounted, securely wrapped and directed, and accom-

panied by a plain, sealed, opaque envelope, containing the name and address of the competitor and bearing a motto or device which identifies the drawings and envelope. Drawings must be directed to the secretary, and delivered at the club rooms not later than February 6, 1906, at noon. ### IT'S UP TO YOU.

The 20th Century Hot Air Radiator System of Heating Office, 1309 Arch street, Philadelphia, Pa., last summer installed a plant at Tuxedo Park, Baltimore county, Md., in a frame house of nine rooms, situated on a hill at least 100 feet high, exposed on all sides. Since October 12th, up to November 18th, the consumption of coal in this plant was less than half a ton. If that does not establish the efficiency of this system over all others, then for your own satisfaction, we invite you to frequently visit 1309 Arch street, the office building of the company, containing 15 rooms, and there keep a tab on the daily consumption of coal, which up to this time has averaged 45 pounds per day of 24 hours. At this average it would make a coal consumption of less than four tons for the six winter months. Does any man know of any other system on God's green earth where any such showing in coal economy can be made?

### A NEW CATALOGUE.

Tognarelli & Voigt, 2318 Chestnut street, modelers and casters in plaster and composition have just issued a new catalogue, embracing a fine line of illustrations of ornamental plaster and composition work, for architects, builders and decorators. This catalogue is complete in every detail and thoroughly up-to-date in designs and practical arrangements. There are over two thousand different subjects, such as caps, brackets, etc., illustrated in this work, and also designs for complete ornamental ceilings.

### ARCHITECTS' NOTES

### ARCHITECTS' NOTES

It is reported that a new trust company, to be known as the Pelham Trust Company, is being formed in Germantown and will be located on Germantown avenue opposite the car barn.

Wm. R. Dougherty, builder, 1604 Sansom street, has submitted bids to Guy King, architect, 1513 Walnut street, for the Bark Mill pumping station for the Delaware Water Company, near Christiansa P. O., New Castle, Del. It will be one story high, built of stone, with the usual appointments.

Rev. Thomas F. Quinn, of St. Edwards Roman Catholic Church, has been appointed pastor of the new parish to be established at or near Glenside, Pa. This will in time require a new church rectory and school. The new territory will be part of the Immaculate Conception, Jenkintown, Pa.; St. Anthony's, Ambler, Pa., and Our Mother of Consolation, Chestnut Hill, Philada.

W. Lisher Blithe, architect, 14 South Broad street, has been commissioned to make plans and specifications for a store and warehouse to be built at Thirty-second and Market street for Julius Fings Son. It will be four stories and basement high, 20x130 feet, and it will be fireproof and have the usual appointments. Will not be ready for bids for some time.

Doyle & Doak, builders, 1509 Sansom street, have started work on transforming the six dwellings at the corner of Twenty-third and Walnut into a building to be used for college purposes. The buildings are three stories in height, with a frontage of 102 feet on Walnut street and of 52 feet on Twenty-third street. At the present time the owner's name is withheld.

The Sechler Memorial Reformed Church at Twenty-first and Tasker streets have decided to erect a new edifice; to cost \$30,000. A. A. Ritcher, architect of Lebanon, Pa., has been commissioned to prepare plans and specifications. As there is a large lot adjoining their present chapel it is expected that the new edifice will be erected on this site. Rev. Henry E. Jones is the pastor.

Plans provide for alterations of the first and second floors. Bids due December 13th. The following have been invited to bid: Wm. R. Dougherty, Stacy Reeves & Sons, R. C. Ballinger & Co., and Jacob Myer & Sons.

Carl P. Berger, architect, South Penn Square Building, has completed and re-

vised plans and specifications and invites estimates for the new school building for the Lutheran Orphan Home to be built at 6950 Germantown ave. (Details previously noted. Bids due December 14th. The following builders have been invited to bid: B. Ketcham & Son, A. Raymond Raff, Cluck & Walters, Joseph Ashby, E. F. Gottschalk, H. P. Schneider, Smith Hardican Co., King Killough and Robert Ross.

Heacock & Hokanson, architects, 931 Chestnut street, are working on plans and specifications for a new residence to be known as "Elmont" to be built at Three Oakes, Michigan. It will be three stories high, 59x46 feet, and be built of brick and plaster. It will have porch on the front and back. The interior will be in hardwood finish and it will have every convenience and appointment. The working plans will be ready for bids in about two weeks time.

Stearns & Castor, architects and engineers, Stephen Girard Building, have completed plans and specifications and invite sub-bids for re-building the residence of H. P. Frothingham at Deal Beach, N. J., at a cost of \$40,000. Ready for bids the latter part of this month. They also are working on plans and specifications for the new Carnegie Library, to be built at the corner of Frankford avenue and Hartel street. (Details formerly noted.) Will be ready for bids about the first of the year.

The estate of H. H. Houston has donated to the Chestnut Hill Hospital a piece of ground 150x225 feet located on Gravers Lane east of Millman avenue, Chestnut Hill. An effort is to be made to get the city to donate an adjoining piece of ground which was for years used as a cemetery for poor people, and to have the bodies removed when this is accomplished. Steps will be taken to procure funds for the erection of suitable hospital buildings. The Rev. J. Andrews Harris is president of the Hospital Society and resides on Chestnut avenue, Chestnut Hill. It is stated that no architect has as yet been consulted.

Herman Miller, architect, 1420 Chestnut street, is working on plans and specifications and will send same to local builders for estimates on December 18th for the handsome new residence of Howard E. Bair, Esq., to be built on Carlisle street, Hanover, Pa. It will be three stories high, 37x33 feet and will be built of red brick with stone trimmings. It will have a large Colonial porch. The interior finish will be in quarter and red oak, chestnut and cherry. It will have stained and leaded glass, heated by hot water, wired for electricity, tile baths and every convenience and appoint-

ment. Also he will at the same time complete plans and specifications and invite estimates from local builders for the handsome new \$100,000 bank building for the Hanover Saving Fund Society, to be built at Hanover, Pa. Details previously noted.

Brooke, architect, 14 South Broad street, has completed plans and specifications and invited estimates to build the addition and make alterations to the plant of Pabst Co., on Allegheny avenue below Twenty-second street. It will be two stories high 116x25 feet, and be built of brick and slow burning construction. George F. Hutchinson, J. P. Thompson and Smith Hardican, will submit bids on December 23d. He also has completed plans and specifications and invites estimates for the new cottage for J. E. Eynon to be built at Twenty-fifth and Central ave, North Wildwood, N. J. It will be three stories high, 46x30 feet and will have a finished basement. It will be constructed of brick and frame, the interior will be in hardwood finish, and have every convenience and appointment. Bids due December 21st. The following builders have been invited to bid: Thomas Goslin, Saul & Ingersoll, Wildwood, N. J., Frank Smith, Holly Beach, N. J., H. Holmes, Avalon, N. J.

At Asbury Park, New Jersey, Architect A. Arend, Appleby Building, has prepared plans for a dwelling to be erected on Cedar avenue, Allenhurst, N. J., for Mr. Samuel Tull, of Philadelphia. It will be two and a half stories high, Elizabethan style of architecture, of Flemish bond brick and stucco; large porches, leaded and plate glass windows, red tile roof and copper cornices. The first floor will contain hall, living room, den, dining room, butler's pantry, laundry and servants' dining room. Four bedrooms and three bath rooms will occupy the second floor, and rooms for servants and storage will occupy the third floor. The first floor will be finished in hard wood and the second in white enamel. The usual modern conveniences will be provided. The cost will be about \$12,000. The same architect has prepared plans for a cottage to be erected on Ocean avenue, Deal, N. J., for a New Yorker. It will be Italian in style, of rough brick and stucco, red Spanish tile roof. It will contain reception hall, music room, living room, dining hall, pantry, kitchen, laundry, six bedrooms, four bath rooms and servants' rooms and bath. ### DON'T PIN IT IN YOUR HAT

"Pin it in your hat" is an old time saying to those who wanted to recollect something important.

This recommendation was all right many years ago for men with limited use of important memorandum, but the twentieth century business man would require a store full of hats if hats were the only depositories for things which must not be forgotten.

The modern business man has a better way of keeping things everlastingly before him.

A simple desk tablet with days and dates covering the entire year in advance, such as the old building material supply firm of Samuel H. French & Co., at Fourth and Callowhill streets, is now sending to its friends and customers.

It is our good fortune to be the recipient of one of these for 1906. It is mounted with a hanger and its cover bears the simple words, "We have much pleasure in extending to you our sixty-second annual greeting and wishing you all the increased prosperity and material happiness that can only be attained by purchasing all the goods you may want in our line during the year 1906." From Samuel H. French & Co., Philadelphia.

Over sixty years of successful business life tells its own story of weights and measures, of quality and confidence, of prompt, unambiguous, straightforward business methods.
